The company who made this create bespoke programs for teaching. Quality of images are amazing and it fits in nicely with a university teaching framework. I personally see this as a major contributor to teaching and engaging students as well as of general interest to those curious about how human anatomy works. Would love to see more from Intervoke.. [Even with a mouse and keyboard because my old RumblePad2 isn't supported in this twin stick shooter. I still had a blast!](#)

[Game runs super smooth and fast. Very colorful and vibrant gameplay makes this game easy to look at and enjoy.](#)

[For any fan of the old school asteroids, Super Stardust on the Playstation console, or the mega popular Geometry Wars games, this game is "Must Buy" period. 8.5 out of 10.](#)

[Best feature IMO: The ability to use salvage points acquired in the gameplay to choose your own powerups and add-on perks for your ship. Making your ship the way you want is a nice feature missing from a lot of these Asteroid genre shooter games. Love it!](#)

[Great jobs devs! Thanks for delivering a huge punch for the price and giving gamers their moneys worth! On Steam these days, that's saying something!](#)

[- Zaxx. A very short, yet very relaxing game.](#)

[The controls are simple, the colors breath-taking, the design simplistic yet elegant.](#)

[Finally the soundtrack. The soundtrack for this game goes perfectly with the calm atmosphere.](#)

[This is a great game to just sit down in front of, for an hour \(or less\), and enjoy the calming melodies as you awaken the World around you.. Fantastic sim! Lots of fun!. As of right now I wouldn't recommend this game. Maybe it's the "Banished" player in me but I can't help but feel like the major thing that's missing in this game is some sort of way to set roles for your little guys that will make them more prone to go toward certain activities. I had two forges and more iron than I could use and I still ran out of tools. And maybe I'm missing something, but shouldn't one chicken pen at least be enough to feed one villager? Well it must not be, because I had one two for each villager and they still starved.. Nice, this is a great little top down even at full price much less on sale. I hope it hasn't been abandoned as you can see the reviews are all positive, yet no activity seems to be around the forums ect. Still, great addition to any top-down shooter's library and surprisingly nice for the price.. At first glance, MouseCraft looked like it may be aimed at too low of an age audience for me to find challenging. I was wrong. The game continues to introduce new mechanics every so often, stepping up the complexity of the puzzles and keeping levels varied. Another plus is the ability to design your own levels. I think this game could appeal to a wide age bracket and does an excellent job at stimulating creative thinking. I never encountered any bugs or issues with the game & highly recommend it.](#)

Nice dlc but I can't figure out how to activate it ;(someone help!. the best time consuming game. Not what I expected. As far as electronic music goes, this isn't even good. The tempo changes constantly and the choices made by the editor are really confusing. It feels like the orchestral and electronic parts are out of sync.

I'll be sticking to the traditional Wadletoft music for CK2, it's far better.. As it says, this is a novel. Fifteen minutes of reading without doing anything else and you pay for it. Plus the story is not that good. Still, if you want to read the story just look it up on the internet or something.. This game really is the next type of GD game. Amazing!
